THINKING & ACTING LIKE AN ENTREPRENEUR

5 ECTS

COURSE DESCRIPTION

All of today's well-known companies got started the exact same way: as an idea within someone's head. While the idea itself is an important prerequisite for success, it was rather what these individuals did with it that enabled them to become the success that they are today. You can learn to think and act like these innovators too. This course helps you to find your idea, turn it into a real-life business and make it a commercial success.

OBJECTIVES

By the end of this course, students should be able to understand:

- What does it mean to be an entrepreneur.
- Whether entrepreneurs are born or made.
- How to find an idea for starting a business.
- Which ideas are worth developing into business plan.
- How to assemble the right team to get the ideas off the ground.
- How and when to revise business plans.
- What are the typical traps into which entrepreneurs fall at the start of their business.

LECTURING METHOD

You will be walked through real-life examples of the various stages of the entrepreneurial process to help you understand how it differs from that of established companies and how you can apply it for your own purposes. A series of homework exercises, tutorials and case studies will enable you to develop a perspective that goes beyond the theoretical scope to prepare you for actual situations. At the end of the course you will create a business plan as group work.

Class attendance 10 %,
Class participation and assignments 20 %,
